

MEMORY CARE

Here, living
with Alzheimer's
or dementia is
still very much
about living.

For many, memory loss leads to a growing feeling of isolation. At the Village of St. Edward, we provide your loved one with an environment that fosters a true sense of belonging.

We encourage their independence, we respect their privacy, and we work to help them live a life of dignity. Our Memory Care staff receives ongoing, specialized training to understand how to positively impact and maximize interactions with your loved one.

Our Memory Care units are specially designed to ensure that every resident feels at home. Each unit features a large bathroom and a variety of safety features that allow your loved one to feel secure.
